I DIDN’T SEE THAT COMING!
WHAT TO DO WHEN THINGS GO SIDEWAYS

Joy Stortvedt

Iowa Museums, Archives & Libraries Emergency Response Team (IMALERT)
Overview

▪ What is IMALERT?
▪ What to do NOW – Disaster Plan
▪ What to do THEN – When Disaster Strikes
▪ What to do AFTER – Lessons Learned
WHAT IS IMALERT?

Iowa Museums, Archives & Libraries Emergency Response Team
Where Did It Come From?

- Created in 2014 in the wake of the 2008 Iowa City Flood
- Funded through grants and the Iowa Conservation and Preservation Consortium
- Staffed by trained volunteers
What does IMALERT do?

- Advice or On-site aid during disaster
- Damage assessment to collection materials
- Recommendations for recovery
- Aid in navigating salvage and drying processes
- Demonstration of salvage techniques or help organizing salvage operations.
IMALERT HOTLINE:
319-384-3673
WHAT TO DO NOW

Disaster Planning
The Most Important Step: Prioritizing Your Collection

▪ What is IRREPLACEABLE?
▪ What is WORTH IT?
▪ What can you do to protect it now?
WHAT TO DO THEN

When Disaster Strikes
Call IMALERT

- DON’T PANIC
- Make sure the environment is safe.
- Gather what information you have.
- Grab your disaster plan.
- Call the hotline for help.
What to Do When You Can Get In

- Take Pictures
- Make Notes – What is damaged? How Many?
- Get together with stakeholders and make a plan
Triage

- What items are priority?
- What items can be saved easily now (but not later)?
- What items have minimal damage?
- What items won’t be damaged by waiting?
- What items can be easily replaced?
- What items will be difficult to save?
Light Water Damage on Books

- Interleave with paper towels
- Use fans & moving air to dry
- Move around throughout the drying process
Heavy Water Damage on Books

- Freeze immediately
- Contact a freeze drying contractor to freeze dry
- Do not freeze items with shiny/photographic pages
Water Damage on DVDs

- Light water damage, take out papers to dry
- Heavy water damage, throw papers away and print new
- Dry discs gently with a soft cloth
- Dry Cases with paper towels inside and out and allow to air dry
Water Damage to Computers & Electronic Equipment

- Unplug Immediately
- Allow to dry completely
- Blow air on inside to make sure all water/dirt is off
- If you are not 100% sure, take it to a professional
Water Damage to Wood and Upholstered Furniture

- Remove from water
- Pat dry with towels
- Allow to air dry
- You will probably need professional cleaning for upholstery for heavy damage
Other Types of Collections

- Get a Salvage Wheel!
- From the American Institute of Conservation
- https://tinyurl.com/3m3yzwuk
WHAT TO DO AFTER

Lessons Learned
Evaluate

- What worked well?
- What didn’t?
- What can be improved next time?
- Write it into your disaster plan.
Share

- Consider sharing your lessons learned at a conference or online session
- Consider writing a Listserv post or article for the Catalyst
- Consider joining IMALERT: imalert.iowa@gmail.com
