

Follett - Destiny v.7

Export records according to these guidelines:

- Export full bibliographic records in MARC format file with MARC8 encoding
- Exclude item level information in the export
- Place all copies together in the same MARC record
- Exclude "fast adds", or brief records, if possible
- Serial records may be included in the export as long as the records are flagged as serials. Locatorprocessing will remove these records before the file is loaded into the Locator.

Exporting MARC Records from Follett's Destiny v.7
